Menara Kuningan Office - 20th Floor (Unit 20 A)

Jl. H. R. Rasuna Said Kav. 16

Setiabudi, Jakarta Selatan

Company Overview

HARPA is a comprehensive Human Capital Management (HCM) system designed to simplify HR processes and integrate seamlessly with financial and legacy systems. It provides a localized payroll management system, compliance with local authorities, and a user-friendly interface.

Key Features

- Core HR: Manage comprehensive HR data with ease.
- Time & Attendance: Monitor employee attendance with flexible scheduling.
- Benefit: Administer benefit programs based on company policy.
- Payroll: Automate payroll processing with compliance to taxation and social security (BPJS).
- Analytics: Gain insights through visual and detailed data analytics.
- Self-Service HR: Enable employees to manage HR transactions on their own.

Deployment Methods

HARPA can be deployed in two different ways based on your infrastructure preferences:

1. ****Private at Customer Site**** - Installed on the company's own data center for more control.
2. ****Public Cloud**** - Subscription-based cloud deployment for scalability and flexibility.

Customer Testimonials

HARPA has helped businesses implement best practices in HCM, offering localization, customization, and integration flexibility.

"Satisfied with the implementation of HARPA, a Localized Human Capital Management System. Not only d
